# HARMANPREET SINGH

## Computer Programmer

I am a highly motivated IT and Software Engineering professional eager to embark on a rewarding career in the world of technology. As a recent graduate with Computer programming from [Sheridan College Institute of Technology and Advanced Learning. I am actively seeking a full-time position within your company where I can apply my extensive knowledge and skills. I am committed to helping your organization achieve its goals by leveraging my technical prowess, organizational abilities, time management skills, and a results-driven work ethic. I excel in both independent and team-oriented, client-centric environments.

## Experience

Sep '21- Mar '22

Stream Infotech | Patiala, Punjab, India

### Web Designer

As a Web Designer at Stream Infotech, I seamlessly integrated the skills acquired during a comprehensive 9-month certificate program, spearheading a range of web design projects and contributing to the company's digital presence.

Technical Prowess Utilization:

Harnessing in-depth knowledge in Computer Fundamentals, HTML, CSS, C, C++, JavaScript, ASP.NET, MySQL, PHP, and MS Office Suite, I creatively designed and developed user-centric websites and web applications.

Design & Development Excellence:

Led the design and development of visually captivating and responsive websites, ensuring a seamless user experience while aligning with the company's branding and design standards.

Technological Innovation:

Integrated cutting-edge technologies and trends in web design, implementing dynamic features using JavaScript and ensuring database functionality with MySQL and PHP for efficient data management.

Result-Oriented Solutions:

Collaborated closely with cross-functional teams to understand project requirements and deliver innovative solutions that exceeded client expectations while meeting stringent deadlines.

Iterative Improvement & Optimization:

Implemented iterative improvements based on user feedback and analytics insights, enhancing website usability, accessibility, and overall performance.

Collaborative Approach:

Engaged in productive collaboration with developers, content creators, and stakeholders, fostering an environment conducive to creative idea exchange and project synergy.

Achievements & Impact:

Instrumental in the successful deployment of several high-impact projects, driving increased user engagement and positively impacting the company's online visibility and brand image.

Recognition & Continuous Growth:

Received accolades for design innovation and commitment to quality. Continuously engaged in self-improvement, staying updated with emerging technologies and industry best practices.

May '23 - Present

Walmart Canada | Mississauga, Ontario, Canada

### Online Order Dispenser

As an Online Order Dispenser at Walmart, I gained valuable experience in fulfilling customer orders through the online platform. This role required a strong sense of accuracy and efficiency to ensure that customer orders were processed and delivered in a timely and precise manner. Working within the Walmart team provided exposure to a fast-paced retail environment and instilled a commitment to meeting customer expectations.

- Efficiently fulfilled online customer orders, ensuring accuracy and timeliness.
- Utilised a digital platform to manage and prioritise orders, optimising the order dispensing process
- Collaborated with a team to maintain a clean and organised workspace, enhancing overall operational efficiency.

April '22- May '23

Farrex Freight | Brampton, Ontario, Canada

## **Warehouse Associate**

During my tenure as a Warehouse Associate at Farrex Freight, I gained valuable experience in various aspects of warehouse operations. This included responsibilities related to inventory management, as well as handling shipping and receiving tasks. The role required meticulous attention to detail and effective collaboration with team members to ensure the smooth flow of goods within the warehouse.

- Contributed to the smooth operation of the warehouse by handling various tasks, including inventory management, shipping and receiving
- Demonstrated strong attention to details in verifying and documenting goods to maintain accurate records,
- Collaborated with team members to meet productivity goals and ensure the efficient flow of goods within the warehouse

## **Projects**

---

- **Web-Based Data Processing Platform-** Engineered a robust data processing platform utilising HTML, CSS, and JavaScript. Incorporated advanced features such as user authentication, a dynamic shopping cart, and an extensive product catalog.
- **Relational Database Management System-** Designed and executed a comprehensive relational database system employing SQL and MySQL. Implemented highly efficient data retrieval and storage mechanisms to enhance database performance.
- **Network Infrastructure Configuration and Maintenance-** Spearheaded the configuration and maintenance of network infrastructure, including routers and switches. Proactively identified and resolved network issues, ensuring uninterrupted operations.
- **E-Commerce-Developed** a fully functional e-commerce website using HTML, CSS, and JavaScript. Implemented user authentication, shopping cart functionality, and product catalogue.
- **Android Expense Tracker App - Created** an Android app to track personal expenses. Utilized Android Studio and Java for development.
- **Network Configuration** - Configured and maintained network infrastructure, including routers and switches, troubleshooted network issues and ensured smooth operation.
- **User Interface Design Authorization Website-Created** a User Interface Design Authorization Website showcasing user interface design skills. Used Adobe XD and Sketch to design visually appealing interfaces.
